CONSENT FORM

Title of Project:	**Research Prototype: Adaptive Puzzle Generation Study.**
Name of Researchers:	Nick Townsend & Jia-Rey Chang

Please tick box

1. I confirm that I have read, or had read to me, and understand the information sheet [*a hyperlink to the information sheet will be embedded in the in-game consent form*] dated 06/03/2026, version 1.1 for the above study. I have had the opportunity to ask questions, and these have been answered fully. ☐

2. I confirm that I am 18 years of age, or older. ☐

3. I understand that my participation is voluntary and I am free to withdraw at any time during the play-test, without giving any reason and without my legal rights being affected. ☐

4. I am aware that even after participating, I can decide to withdraw my data until the study end date of 30/04/2026, by selecting the "Withdraw" option from the in-game pause menu.

5. I understand the study is being conducted by researchers from Queen's University Belfast and that collected information will be held securely and handled in accordance with the provisions of the Data Protection Act 2018. Collected data will be stored for 5 years, before being deleted (Unless the participant requests that their data is deleted before the study end date, as specified in point 4). ☐

6. I understand that data collected as part of this study may be looked at by authorised individuals (the researcher and their supervisor) from Queen's University Belfast where it is relevant to my taking part in this research. I give permission for these individuals to have access to this information. ☐

7. I understand that the information I provide may be included or quoted in scholarly publications and I agree that this information can appear in current and forthcoming research purposes in the following guises:

- **Dataset or datasets** in online public data repositories such as Pure/Queen's Research Portal or name other repository/repositories ☐
- **MA dissertation** which will be shared electronically with examiners via the University's teaching platform ☐
- **Presentations and papers** – academic and/or non-academic – which will be online and/or in-person. And which can also be recorded and available online. ☐

8. I understand that my participation is confidential and that no personally identifiable information will be collected about me. All data collected is identified only by a unique, anonymous ID, randomly generated for each participant. ☐

9. I understand this playtest will be recorded by remotely tracking gameplay metrics (e.g., puzzle solve times, movement patterns) and in-game survey responses, which will then be transmitted to a secure university database. I understand that this data will be automatically collected until the study end date, 30/04/2026. I agree that this gameplay data can appear in current and forthcoming research purposes in the following guises:

- **Dataset or datasets** in online public data repositories such as Pure/Queen's Research Portal or name other repository/repositories ☐
- **MA dissertation** which will be shared electronically with examiners via the University's teaching platform ☐
- **Presentations and papers** – academic and/or non-academic – which will be online and/or in-person. And which can also be recorded and available online. ☐

10. Due to the anonymous nature of this study, I understand that if I disclose any information that indicates that I am at risk of harming myself or others, or in danger of being harmed by someone else, the researcher cannot identify me and therefore cannot help to provide emergency assistance by passing information on to the relevant authorities. ☐

11. I agree to take part in the above study. ☐

.
